

Louis Tomlinson - High In California

tom:

Intro: E G C B A B

[Primeira Parte]

Blue like the lights surrounding me
 It all seems so different when I'm around it
 See all these waves and waves of green
 Keep on coming like a dream until nothing is the same
 Sun goes down and it changes
 Never holding on to anyone else
 When you go, when you go I can take you
 Somewhere better than where you were before

[Refrão]

I wanna be in California
 Smoke some weed outside in the summertime
 They always say is so bad for me
 Everything I tried makes me feel alive
 Spend my whole life just thinking I had to change
 Spend my whole life just thinking I had to change
 I wanna be in California
 Smoke some weed outside in the summertime
 (E G C B A B)

[Segunda Parte]

I could just roll the windows down
 Let the golden hour wash through the room
 I hope that always stays around

All the cloud just small comments of blue
 When the sun goes down and it changes
 Never holding on to anyone else
 When you go, when you go I can take you
 Somewhere better than where you were before

[Refrão]

I wanna be in California
 Smoke some weed outside in the summertime
 They always say is so bad for me
 Everything I tried makes me feel alive
 Spend my whole life just thinking I had to change
 Spend my whole life just thinking I had to change
 I wanna be in California
 Smoke some weed outside in the summertime
 (D Em C Em)
 (D Em C Em)

[Refrão]

I wanna be in California
 Smoke some weed outside in the summertime
 I wanna be in California
 Smoke some weed outside in the summertime
 They always say is so bad for me
 Everything I tried makes me feel alive
 Spend my whole life just thinking I had to change
 Spend my whole life just thinking I had to change
 I wanna be in California
 Smoke some weed outside in the summertime
