

Love Life - When Lonliness Comes Knockin'

tom:

Intro: Eb Bb Cm Ab

Well, I should have known
 Can you feel my heart beating
 Now you're closer than ever
 I was all alone
 I've been lonely too long
 But now that we're together

It feels good to smile
 And all the while
 You've got me wrapped in your
 Loving arms and now

When lonliness comes knockin' at my door

I hope that it's next to never
 'Cause I don't feel lonely anymore
 Now that you're heer forever

Well, I've had enough
 And I'm tired of fallin'

But there's something about you
 And when life gets tough
 You give me strength To carry on
 And that's something I never knew

It feels good to smile
 And all the while
 You've got me wrapped in your
 Loving arms and now

When lonliness comes knockin' at my door

I hope that it's next to never
 'Cause I don't feel lonely anymore
 Now that you're heer forever

And when the rain comes down
 You shelter me without a sound
