Lucas Cyrne - Don't Run Away

Tom: Ab

Intro: Bbm7   Eb7

```
                                    Bbm7              Eb7
I'm walking trough a cold night
                   Bbm7           Eb7
My feet got frozed so I will die
Bbm7                             Eb7
I'll not ask pardon for the old days
            Bbm7                      Eb7
'Cause I lost my soul in so many ways

Bbm7                               Eb7
Who saw Matthew he was right here
            Bbm7
With a bullet in the head but with no fear
        Bbm7
I may have lost him for a second or two
                             Bbm7
But you know it's true
                           Eb7
Matthew wasn't so smart

Bbm7
I don't care if you will try
      Eb7
To save my body when I already died
               Bbm7           Eb7
In my soul

Bbm7
```

```
I don't care if you will try
           Eb7
To save my body when I already died
              Bbm7              Eb7
In my soul

  Bbm7                                          Eb7
Another glitch in my mind

Another blow that don't
  Bbm7                    Eb7
Disappear with the time
         Bbm7
Humanoids from where I live
         Eb7
    Eb7 Trying to whisper curses at me

       Eb7  Bbm7
What I'm trying to say
                           Eb7
I said baby
                                       Bbm7
Eb7
Don't run away from me (Don't run away from me...)
    Bbm7                                      Eb7
I shooted Matthew but isn't hard to see
              Bbm7                     Eb7
That I wouldn't do the same for you
        Bbm7                          Eb7
No I wouldn't do the same for you, no...
```

- Just keep going as far as you want -

Acordes
