

# Lyn Lapid - Ok With It

tom:  
 A  
 We live in other dimensions  
 We both saw it coming -Coming, coming-  
 We used to sleep by our mobiles  
 Now we're barely calling -Calling, calling-  
 I haven't worried 'bout where you've been  
 Who you've been talking with  
 We're growing dissonant  
 Finish line's imminent  
 And inevitably you'll surely forget me -'Get me, 'get me-

[Refrão]

It's the end, and I'm okay with it  
 Seasons shift, they're always changing  
 And we'll be sad, through the summer  
 Start again with different lovers  
 Know the thought can b? menacing  
 Waking up when you're not n?xt to me  
 It's for the best, we've been caving  
 It's the end

And I'm o-o-o-okay with it  
 And I'm o-o-o-okay with it

[Segunda Parte]

We could be living like one day  
 We'll be reunited -'Nited, 'nited, 'nited, 'nited-  
 And promise that we'll stay in touch  
 But we know we'd be lying  
 Why be at odds with our sanity?  
 By arguing with reality

[Refrão]

It's the end, and I'm okay with it  
 Seasons shift, they're always changing  
 And we'll be sad, through the summer  
 Start again with different lovers  
 Know the thought can b? menacing  
 Waking up when you're not n?xt to me  
 It's for the best, we've been caving  
 It's the end  
 And I'm o-o-o-okay with it  
 And I'm o-o-o-okay with it
