

M. F. Baracat Abreu - Under The Sky

Tom: G

Do you wanna see the stars
 They shine bright in the sky
 You and me, together, forever
 Never running out of time
 Because we, there is no longer "we"
 We are just the same
 There is no separated parts

Under the sky
 The eye who sees everything
 Is watching us
 Our heart is one melody
 Our home is just where we are
 There is no separated parts
 Under the sky

Acordes
