Said you just don't know how beautiful you are

And baby, that's my favorite part  
B7m Bbm7 Abm7 Gb Bb7 Bb

You walk around so clueless to it all

Like nobody gonna break your heart

It'll be alright, babe

See, me, I got you covered

I'm gon' be your lover, you might be the one

If it's only tonight, we don't need to worry ay,

We ain't in a hurry, rushin' into love

Said, you know I know who you really are

Ain't need to lie

Said, the universe couldn't keep us apart

Why would it even try?

Yeah, said, don't let them hurt you ever

I know you far too smart

Before things come together  
They have to fall apart

It's been a while since I've been sober

This life can be so hard

I'd rather talk about you

[Mac Miller & Ariana Grande]

Said you just don't know how beautiful you are

And baby, that's my favorite part

You walk around so clueless to it all

Like nobody gonna break your heart

It'll be alright, babe

See, me, I got you covered

I'm gon' be your lover, you might be the one

If it's only tonight, we don't need to worry ay,

We ain't in a hurry, rushin' into love

Baby, if you wanna stay, we're taking it slow, babe

'Cause you and me, and I got enough on my mind

But I can make some time for something so divine, ah aah

Said you just don't know how beautiful you are

And baby, that's my favorite part

You walk around so clueless to it all

Like nobody gonna break your heart

It'll be alright, babe

See, me, I got you covered

I'm gon' be your lover, you might be the one

If it's only tonight, we don't need to worry ay,

We ain't in a hurry, rushin' into love
