

Madeline The Person - August

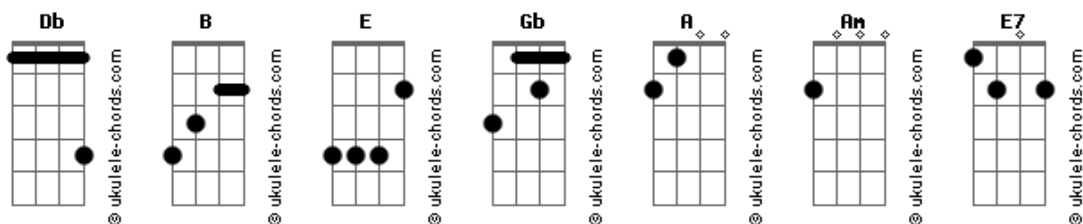

tom:
Db (forma dos acordes no tom de B)
Capostrate na 2ª casa

You're too many states away
You never said goodbye to my dog
The one that died and loved you quite a lot
I wish I could complain to you
But I can't risk sounding a bore
I just miss my dog and I miss you all the more

[Chorus]
I glued my fingers together
And you can't see the ground in my room
They predicted bad, bad weather
But I guess the sun shines 'cause you asked it to
I was counting on that thunder though
To press reset on my soul
But then you reached out and you held my hand through the phone
And suddenly I don't feel so alone

[Verse 2] (Adam)
You left me with only the scent of you
So I keep meeting you in my dreams
Maybe one night I could finally say what I mean
If i could put the words into melodies
Oh it would be a beautiful song

But it's August now, and it still just comes out wrong
[Chorus]
I glued my fingers together
And you can't see the ground in my room
They predicted bad, bad weather
But I guess the sun shines 'cause you asked it to
I was counting on that thunder though
To press reset on my soul
But then you reached out and you held my hand through the phone
And suddenly I don't feel so alone
[Bridge]
E Gb A Am E X2
Mhhhhhhhhhhhhhh
[Chorus]
I glued my fingers together
And you can't see the ground in my room
They predicted bad, bad weather
But I guess the sun shines 'cause you asked it to
I was counting on that thunder though
To press reset on my soul
But then you reached out and you held my hand through the phone
And suddenly I don't feel so alone
And suddenly I don't feel alone
