

Madonna - Devil Pray

Tom: C

Am C G Am
 Take my sins and wash them away
 Am C E
 Teach me how to pray
 Am C G Am
 I've been stranded here in the dark
 Am G Am
 Take these walls away

I've been swimming in the ocean
 Till I'm almost drowned
 Give me something I can believe in
 Teach me how to pray

Am C
 And we can do drugs
 G
 And we can smoke weed
 Am
 And we can drink whiskey
 Am C
 Yeah we can get high
 E
 And we can get stoned

Am C
 And we can sniff glue
 G
 And we can do E
 Am
 And we can drop acid
 Am C E
 Forever been lost with no way home

Yeah we can run
 And we can hide
 But we won't find the answers
 If you'll go down and you'll get help along the way
 But if you wanna save your soul
 Then we could travel all together

And make the devil pray

Ooh, save my soul, save my soul, save my
 Devil's here to fool ya

Mother Mary, can't you help me?
 Cuz I'm gone astray
 All the angels that were around me
 Have all flown away

The ground beneath my feet's getting warmer
 Lucifer is near
 Holding on, but I'm getting weaker
 Watch me disappear

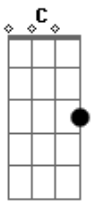

And we can do drugs
 And we can smoke weed
 And we can drink whiskey
 Yeah we can get high
 And we can get stoned

And we can sniff glue
 And we can do E
 And we can drop acid
 Forever been lost with no way home

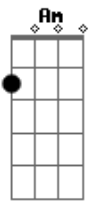

Yeah we can run
 And we can hide
 But we won't find the answers
 If you'll go down and you'll get help along the way
 But if you wanna save your soul
 Then we could travel all together
 And make the devil pray

Ooh ooh ooh sing hallelujah
 Ooh ooh ooh save my soul
 Ooh ooh ooh the devil was here to fool ya
 Until my story's told
 I said ooh sing hallelujah
 Oooh, save my soul
 Oooh, the devil's here to fool ya
 Until my story's told
