

Maggie Eckford - Let The Light Back In

Capostrate na 3ª casa

Look for you a way out love
When the shadows come
When the push comes to shove, I won't leave
When you wanna fall apart
When it tears your heart
When you feel like giving in, I'll believe
In the darkest night
I'll be waiting for you
I will shine for the both of us
I will carry you thru
I will be your fire when everything goes dim
I will burn for the both of us

Let the light back in

(C Em F Fm)
When your days are cold and grey
When the warm sun fades
When all you see is rain, I won't leave
When the waves crash down
From the ocean sea
When it all seems out of reach, I'll believe
In the darkest night
I will be waiting for you
I will shine for the both of us
I will carry you thru
I will be your fire when everything goes dim
I will burn for the both of us
We'll let the light back in
Let the light back in
