Magic! - Stupid Me

```
Stupid you
(forma dos acordes no tom de G )
Capostraste na 3ª casa
                                                               Stupid you, you don't know how to act right
           Oh oh oh, oh oh, oh oh
                                                               Gave you the best sleep you ever had in your life
Stupid me, I don't know how to slow down
                                                               And all you had to do was kiss me goodnight
                                                                        G
Felt your touch and now I want it all now
                                                               I swear to you a man like me you won't find
Waiting by the phone begging for a call now
                                                               Why do you play with my heart, why do do do you?
Centuries go by, and still there's no sound
                                                               When you know that I see right through through through you?
Why do you play with my heart, why do do do you?
                                                             D But if you don't love me the way I love you
When you know that I see right through through through you?
                                                               And if you don't want me the way I want you
                                                                               D
But if you don't love me the way I love you
                                                               And if you don't need me the way I need you
And if you don't want me the way I want you G C
                                                               I just got one thing to say to you Em
