

Mando Diao - Crystal

Tom: G

Fade away
 All that we have dreamed of
 Bergman said it all
 The magic is in the fall, so true
 When you see him tell him all that you
 Don't know
 All how much we've grown
 So I cry but like always, I don't feel
 That much in here
 So I sit by your side just to be near you
 Oh lord please don't take him yet
 Now you're gone, you're with angels
 I will soon come visit you
 And talk about, the time we had together
 And our town is filled with tears
 Don't feel bad while you're there

Life was only sad sad while you were here
 Filled with rage and fear
 And now I sit by your side
 But you can't hear me
 You can always count on me
 Don't feel sad, you're with angels
 I will soon come visit you
 And talk about, the time we had together
 Now our town is filled with tears
 So I sit by your side
 Although you're not with me
 When I comfort you, when I come to you
 And like always, right here by your side
 Don't feel sad, you're with angels
 I will soon come visit you
 And talk about, the time we had together
 And our town is filled with tears
