

Marcos Zeeba - Photographs

Tom: G

Verso 1:

You can stay here for tonight

It's too late to say goodbye

Just let me hold you tight

Cause it's so cold outside

Let me wrap you in my arms

Put you head right next to mine

Forget about last night

Cause it's too cold outside

Pré-refrão:

Oh take my hand tonight

Refrão:

So let's just take new photographs

Forget about it let me make you Laugh

Cause we can be all we want to be

Let's just make great new memories

Verso 2:

Let me take you for a ride

Feel the wind change all our lives

I'll make you feel alive

Just stay with me tonight

Let me pour you with some wine

Look inside for that new record

Give me that sign

I'll make you mine

Oh dance with me tonight

So let's just take new photographs

Oh taking back something so lost

You will fall in love with me somehow

I'm taking it all to me

I'm taking it all

So let it hit me hard

Hit me stronger

Let's just take new photographs

Forget about it let me make you Laugh

Cause we can be all we want to be

We can be all

Refrão:

So let's just take new photographs
