Marcus Vilano - Out The Line (feat. Shake, Kenzawin)

```
                          tom:
                     D

              G                          Em
Hit the lights over me
          Bm              A
I really need make you see
          G        Em      Bm  A
That I'm no longer blue
          G                Em
Can you tell me your fear
      Bm                    A
What I can't see it clear
          G          Em      Bm  A
Tell me lies I wanna hear

G                     Em
Tell me something to regret
Bm                          A
Something that you never left
      G              Em          Bm  A
And I can sing for you a lullaby

                     G
You see It now
        Em          Bm      A
I don't wanna your side

                     G          Em
```
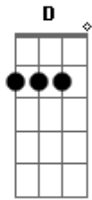

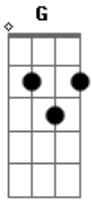

```
I'm tired to fix you up
                     Bm        A
To someone who I could love
                          G
I know is not right

                     G  Em   Bm  A
Out the line

G                          Em
Tell me something to regret
Bm                          A
Something that you never left
          G                Em          Bm  A
And I can sing for you a lullaby

                          G
You see It now
        Em              Bm      A
I don't wanna your side

                     G          Em
I'm tired to fix you up
                     Bm        A
To someone who I could love
                          G
I know is not right

                     G  Em   Bm  A
Out the line
```
