

# Maria Vidal - Body Rock

tom:

Bb

Eb

Bb

Born on a hungry street

Children of darkness

Grew up on the beat

Anything in our way

We'll just move away

I've got the heart to win

You've got the eyes

That say that i can

We're gonna turn this town

Upside down tonight

They can't stop us now

Body rock

Get your body in the music

Body rock

Comes from deep inside me

Body rock

Na na na na na na na

Let your body talk to me tonight

We come from underground

Sticking together

Gonna turn this world around

Running through the neon light

With a dream inside

This is like something new

Heartbeat to heartbeat

Coming straight at you

We've got the moment now

Once we're on the move

They can't hold us down

Body rock

Get your body in the music

Body rock

Comes from deep inside me

Body rock

Let your body talk to me tonight

Na na na na na na na

## Acordes
