

Mariah Carey - The Distance (feat. Ty Dolla \$ign)

tom:
Capostrate na 2ª casa (forma dos acordes no tom de Bm)

Intro: S-P-I-R-I-T, it's great to see
We got it, the spirit

Hey, hey, let's hear it

[Primeira Parte]

Ain't nobody stopping us

What we have is dangerous

Left their opinions in the dust

Said can't nobody fuck with us

They'll never find a way to make us fade away

Our love won't fade away (no)

They'll never find a way to make us fade away

Our love won't fade away

[Pré-Refrão]

Warm days, cold nights, late October

Separated, people saying what we have is over

But the hate only made us get closer (close)

And closer

[Refrão]

Said we couldn't go the distance, yeah

Look at us, we're going the distance

They just wanna be us

They don't wanna see us going the distance (yeah)

For laughs, for laughs, la di da

Said we couldn't go the distance

For life, for life, la di da

Look at us, we're going the distance

The distance, oh

[Segunda Parte]

There was no good, having hands up

Trying to diminish me

Boy we stayed up, camping out crowds

In spite of them difficulties

But they can't, but they can't, but they can't

Take away them precious memories (yeah)

And I won't, and I won't, and I won't

Let 'em come between you and me (woo)

[Pré-Refrão]

Warm days, cold nights, late October
