Verse 1 (wig. 1)

=====

The cars leave their trails of hot and cold light inside my head
 Like burned-in long exposure pictures
 The wheels spin slowly backwards
 Strobing in the amber light
 And the rain comes down and washes my brain
 But it don't get clean

Chorus

Chord Progression:

| **E** | **A** | **G** | **D** |

This town has turned me into what I have become
 This town dresses me up like a stranger

This town performs in the window like the ultimate gift
 This town takes us down
 I feel like I'm losing you to this town

Verse 2 (wig. 1)

=====

We were saving our money for half of our lives
 We were saving our dreams
 And we came to this place to make the chances real
 In the big city
 But I've been counting the days
 I've been watching you change
 And I can feel it dying
 The noise outside takes you in its arms
 Like a lamb to a lion

Bridge (Play **B** 4 times)

=====

And down there somewhere among the noise
 The magazine dolls and the big money boys
 Move silently on their easy heels
 They move silently on their greasy wheels

Chorus (there is a guitar part but I can't make it out)

=====

This town has turned me into what I have become
 This town dresses you up like a stranger
 This town hangs around in the doorway and tells me I'm late
 This town takes us down, takes us down
 I feel like I'm losing you to this town
