Verse 1 (wig. 1)

=====

The cars leave their trails of hot and cold light inside my head  
 Like burned-in long exposure pictures  
 The wheels spin slowly backwards  
 Strobing in the amber light  
 And the rain comes down and washes my brain  
 But it don't get clean

Chorus

=====

Chord Progression:

| **E** | **A** | **G** | **D** |

This town has turned me into what I have become  
 This town dresses me up like a stranger

This town performs in the window like the ultimate gift  
 This town takes us down  
 I feel like I'm losing you to this town

Verse 2 (wig. 1)

=====

We were saving our money for half of our lives  
 We were saving our dreams  
 And we came to this place to make the chances real  
 In the big city  
 But I've been counting the days  
 I've been watching you change  
 And I can feel it dying  
 The noise outside takes you in its arms  
 Like a lamb to a lion

Bridge (Play **B** 4 times)

=====

And down there somewhere among the noise  
 The magazine dolls and the big money boys  
 Move silently on their easy heels  
 They move silently on their greasy wheels

Chorus (there is a guitar part but I can't make it out)

=====

This town has turned me into what I have become  
 This town dresses you up like a stranger  
 This town hangs around in the doorway and tells me I'm late  
 This town takes us down, takes us down  
 I feel like I'm losing you to this town
