I've lived a lot of different lives
                                                            Got different people inside my head

                                                            I wonder which one that they like best
Been different people many times
                                                                       A D G Bm

I live my life in bitterness
                                                                            D E Bm, A, D, G

And fill my heart with emptiness
                                                            And ending up with not much at all
