

# Marina And The Diamonds - Starring Role

Tom: E I send my best regards from hell.

Base Introdução e Versos: Dbm A Gbm

You're hard to hug, tough to talk to  
And I never fall asleep  
When you're in my bed  
All you give me is a heartbeat...

I've turned into a statue and it  
Makes me feel depressed  
'Cause the only time you open up  
Is when we get undressed

You don't love me, big fucking deal  
I'll never tell you how I feel  
You don't love me, not a big deal  
I'll never tell you how I feel

Refrão:

It almost feels like a joke to play out a part  
when you are not the starring role  
In someone else's heart  
You know I'd rather walk alone (rather walk alone)  
Than play a supporting role  
If I can't get the starring role

e/ou

Sometimes I ignore you  
So I feel in control  
'Cause really I adore you  
And I can't leave you alone  
Fed up with the fantasies  
That cover what is wrong  
C'mon baby, let's just get drunk  
Forget we don't get on

You're like my dad, you'd get on well.

Ponte:

I never sang for love  
I never had a heart to mend  
Because before the start began  
I always saw the end, yeah  
I wait for you to open up  
To give yourself to me  
But nothing's ever gonna give  
I'll never set you free  
Yeah, I'll never set you free
