

# Marlon Borges - Nascer e Morrer

Tom: C

Beijando a face da noite  
 Iluminando o dia de paixão  
 Soltando o corpo em movimento lindo  
 Gozando a liberdade de apenas ser

Eu vou pedir pra você vir

Pra ficar comigo até daqui a pouco  
 Até nós descobrirmos por que  
 Nascer e morrer

O amor nos diz pra dividir  
 Pra tornar livre o que se tem  
 Como pode isso se não se tem nada  
 Nem possui ninguém
