

Maroon 5 - Doin' Dirt

Tom: Gb

Intro: Abm B Ebm Db

Hey you don't wanna love you on the telephone
 You're hanging up and now I'm all alone
 Baby you got me doing dirt doing dirt doing dirt
 And now I wanna find you but you're on the run
 My heart's exploding like a burning sun
 I know you like it when it hurts when it hurts when it hurts

Hold me we're dancing in the dark of the night
 You're shining like a neon light
 I light you up when I get inside
 So won't you touch me cause everybody's watching us now
 We're putting on a show for the crowd
 So turn it up baby make it loud

Hey you say that you're only having fun and then
 You call me up at 3am again
 Baby you got me doing dirt doing dirt doing dirt
 And now all that I got is just a microphone
 To let you know that I am all alone
 I know you like it when it hurts when it hurts

Hold me we're dancing in the dark of the night
 You're shining like a neon light
 I light you up when I get inside
 So won't you touch me cause everybody's watching us now
 We're putting on a show for the crowd
 So turn it up baby make it loud
 Yeah come on

So right now I wanna leave with you right now
 I wanna be with you all night get in the car let's go
 Yeah let's take it home let's take it home let's take it home

So right now I wanna leave with you right now
 I wanna be with you all night get in the car let's go
 Yeah let's take it home let's take it home let's take it home

Hold me we're dancing in the dark of the night
 You're shining like a neon light
 I light you up when I get inside
 So won't you touch me cause everybody's watching us now
 We're putting on a show for the crowd
 So turn it up baby make it loud
