

Marshmello - Tongue Tied (feat. Yungblud & Blackbear)

tom:
 Capostraste na 4ª casa

I feel my life's been so tongue-tied
 I'm trapped outside, inside my mind
 If you feel like, that you're tongue-tied
 Then we're tongue-tied together

Every morning I ride on a carousel
 To the sides of my mind that I cannot help
 Had to die in Heaven just to get to Hell
 Fell when the lights went out now
 My real friends act like they don't know me
 This headache's giving me a nosebleed
 My side is just killing me slowly
 Can't keep tuning it out and
 I been suffering

Been makin' friends with all my sins
 I need savin', I need savin'
 You won't save me ever again
 I'm feeling kind of fit
 Been rolling silence through my lips
 I need savin', I need savin'
 You won't save me ever again

'Cause I feel my life's been so tongue-tied
 I'm trapped outside, inside my mind
 If you feel like, that you're tongue-tied
 Then we're tongue-tied together

So can you even hear me now?

Tongue-tied together
 Tongue-tied together
 Tongue-tied together (yeah-yeah, uh-uh)

You done changed, you done changed, you done switched up for sure

You ain't lose me in the summer, you lost me at "Hello"
 Anytime you see my smilin', it was probably for show

All the memories are blurry so I let 'em burn slow

I ain't seen you in a minute, where did all the time go?

You was outta pocket when you told me "Die slow"

I was going through the shits, I kept it down low

Tongue-tied, tongue-tied, what we had was our life

People change, people change, people switch up

It's okay, you can't save me ever again

People change, people change, people switch up

It's okay, you can't save me

'Cause I feel my life's been so tongue-tied

I'm trapped outside, inside my mind (Inside my mind)

If you feel like (you feel like), that you're tongue-tied (uh)

Then we're tongue-tied together

(...that you're tongue-tied)

(Then we're tongue-tied together)

So can you even hear me now?

Tongue-tied together

Tongue-tied together, so can you even hear me now?

Tongue-tied together

Tongue-tied together, oh-oh-oh

Oh-oh-oh, oh-oh oh-oh
