

# Martin Garrix - Now That I've Found You (feat. John Martin)

tom:  
Intro: Em  
[Primeira Parte]  
Flashback to the time in your life  
When thought it would be easy  
But it's hard when you're taking on the world, you know  
The one shot that you fire at the sky  
Hoping someone else can see it  
Just a sign that you're not on your own, you know

[Refrão]  
We come one tonight  
I've been waiting for your wake up call  
Growing stronger now  
I can hear it in a thunderstorm  
We sing, ohh ohh  
I don't want to do this without  
Ohh ohh  
I won't let go now that I've found you  
Now that I've found you  
( Em D C D )  
( Am Bm C D Em )

( ohh ohh )  
I won't let go now that I've found you  
( ohh ohh )  
I won't let go now that I've found you  
Em

Now that I've found you

[Segunda Parte]

Some say you can't never go back  
To the city bed for dreamers  
But I know we can find it on, you know  
The one shot that you fire at the sky  
But this time we are together  
We're right here in this moment where we belong

[Refrão]

We come one tonight

I can hear it in a thunderstorm  
We sing, ohh ohh
