

# Marvin Sapp - Praise Him In Advance

tom:

Intro: Db Ab Db

[Primeira Parte]

I've had my share of ups and downs  
 Times when there was no one around  
 God came and spoke these words to me  
 Praise will confuse the enemy

I started singing, I started clapping  
 I started dancing, people were laughing  
 They knew my problems, they knew my pain  
 But I knew God would take them away

[Segunda Parte]

I've had my share of ups and downs  
 Times when there was no one around

God came and spoke these words to me  
 Praise will confuse the enemy

I started singing, I started clapping  
 I started dancing, people were laughing  
 They knew my problems, they knew my pain  
 But I knew God would take them away

That's why I praise him with my hands  
 That's why I praise him with a dance  
 He's given me a second chance  
 Come on lets praise him in advance

That's why I praise him with a song  
 When things are right and when they're wrong  
 He's given me a second chance  
 Come on lets praise Him in advance
