

Marwan Daou - Carsick

tom:

[Primeira Parte]

Back and forth together
We fuck to make it better
Give up because it?never?does
No apologies
I don't?wanna hear the reason
This love?could be the death of us

[Pré-Refrão]

Always find a way into my heart
Chasing stars, end up in the dark
Say I leave but never do
You're like poison running through my veins

[Refrão]

Girl you make me carsick
Late night in the bar sick
Driving me insane the way you playing with my heart still
I can never say no
Yeah you got me hypno
Fall for every trick you say or do 'cause I'm unstable
And honestly you will always be the better part of me
And I hate that I feel carsick
Late night in the bar sick
Driving me insane the way you playing with my heart still

[Segunda Parte]

Back and forth together
We fuck to make it better
Give up because it never does

Hold on to each other
Can feel this for another

[Pré-Refrão]

Always find a way into my heart
Chasing stars, end up in the dark
Say I leave but never do
You're like poison running through my veins

Girl you make me carsick
