

Mat Kearney - Crashing Down

tom: [Primera Parte] These back steps are steeper to the ground The brightest stars are falling down I'm walking the edge, walking the tightest rope We can be frank, reality rips on through Rolling like a hurricane I'm over the bridge and under the rain [Pré-Refrão] If everything's falling, if everything's changed If I'm in the open, if I'm in the way [Refrão] What am I doing here If you're not with me What have I got to live for If it's just my own dream Take it back to the beginning Back to the start When gravity's pulling You're still holding my heart You come crashing down Crashing down [Segunda Parte] These four walls are closing in on me The talk is louder than I'll sing I want to be there, want to be where you are But you know it all **Acordes**

Every look and smile that aren't meant to break I'm over the bridge and under the rain [Pré-Refrão] Em If everything's falling, if everything's changed If I'm in the open, if I'm in the way [Refrão] What am I doing here If you're not with me What have I got to live for If it's just my own dream Take it back to the beginning Back to the start When gravity's pulling You're still holding my heart You come crashing down Crashing down [Ponte] And you say that everything is different Why don't we just hold on And you say that everything is different Why don't we just hold on [Final] Crashing down Crashing down Crashing down G Crashing down You, crashing down You, crashing down
