

# Matanza - Devil Horse

Tom: **A**

(com acordes na forma de )  
Intro:

This is a song about devil horse, devil horse  
The most strong blacktrunck of stormville  
This a song about devil horse, devil horse  
And try to see how deep the hell is

And now it's gone there's no horse like him  
And now it's gone there's no horse like him

So they made a whisky called devil horse  
And try to see how deep the hell is

So they made a whisky called devil horse  
And try to see how deep the hell is

And now it's gone there's no horse like him  
And now it's gone there's no horse like him

And since 1899  
There's bad moon rising  
Thunder from the skies  
And trouble on the way

Take the same old train  
Get to dashville again  
Hear the devil horse claim  
Take a time of your fucking life  
Of runaway

## Acordes
