

Matanza - Devil Horse

Tom: **A**

(com acordes na forma de)
Intro:

This is a song about devil horse, devil horse
The most strong blacktrunck of stormville
This a song about devil horse, devil horse
And try to see how deep the hell is

And now it's gone there's no horse like him
And now it's gone there's no horse like him

So they made a whisky called devil horse
And try to see how deep the hell is

So they made a whisky called devil horse
And try to see how deep the hell is

And now it's gone there's no horse like him
And now it's gone there's no horse like him

And since 1899
There's bad moon rising
Thunder from the skies
And trouble on the way

Take the same old train
Get to dashville again
Hear the devil horse claim
Take a time of your fucking life
Of runaway
