

Matchbox Twenty - Could I Be You

```
Tom: C
                                                              And I was wondering
Intro:
Observação: Se você fizer essa intro junto com a nota C fica
                                                               Could I just be you tonight
muito bacana...
                                                               This is the sound that I make
                                                                            Е
                            Am
                                                                                   Am
Something is wrong with the sum of us \bar{}
                                                               These are the words I chose
                            G (F opcional)
                                                                            E Am
That I can't seem to erase
                                                               Somehow the right thing to say
How can I be the only one
                                                               Just won't come out
Without a smile on my face
                                                              Just won't come out
Well now, you're laughing out loud
                                                              And you're laughing out loud
At just the thought of being alive
                                                              At the thought of being alive
                                                              And I was wondering
And I was wondering
                                                                      G
Could I just be you tonight
                                                               Could I just be you tonight
You show your pain like it really hurts
                                                              And I was wondering
                                                                        G
And I can't even start to feel mine
                                                               Could I just be you tonight
                                                                        Eb
Well, I'm standing in place
                                                               na, na, na, na, na, na, na, na, na, na
                                                               (C Eb F)
With my head first and I shake, I shake
                                                              And I was wondering
                                                              na, na, na, na, na, na, na, na, na
I see your progress stretched out for miles and miles
                                                              And I was wondering
                                                              na, na, na, na, na, na, na, na, na
                                                              Yeah, and I was wondering
Refrão:
                                                              na, na, na, na, na, na, na, na, na
You're laughing out loud
                                                              I was wondering, yeah
At just the thought of being alive, yeah
