

Matchbox Twenty - Hand Me Down

Tom: G

Observações:

As notas que estão entre parênteses são opcionais. Isso quer dizer que elas ajudam na melodia, mas que na versão original são tocadas pelo baixo. Como alguns de vocês podem observar, dá para transpor para acordes abertos usando uma outra afinação. Mas isso eu também não gosto de fazer. Transcrevo as músicas pensando em tocá-las em uma roda de amigos. Não quero ter que ficar trocando de violão a cada música. Gosto de manter tudo simples! Como em todas as outras minhas transcrições, as faço usando um violão. Portanto tendo a deixá-las o mais "acústico" possível.

Essa é pra você Rafael Rato Lopes!

Intro: Db Gb

Db Gb

Someday they'll find your small town world on a big town avenue
Gonna make you like the way they talk when they're talking to you
Gonna make you break out of the shell cause they tell you to
Gonna make you like the way they lie better than the truth (Ab)

Bb (Db) Cm (Ab) Gb

They'll tell you everything you wanted someone else to say
They're gonna break your heart, yeah

[Chorus]

Db Ab Ebm Gb

From what I've seen
You're just a one more hand me down

Cause no one's tried to give you what you need

I am with you now

Db Gb

Somebody ought to take you in
Try to make you love again
Try to make you like the way they feel
When they're under your skin
Never once did think they'd lie when they're holding you
You wonder why they haven't called (Ab)

Bb (Db) Cm (Ab) Gb

When they said they'd call you
You start to wonder if you're ever gonna make it by
You'll start to think you were born blind

You're just a one more hand me down
