

Matchbox Twenty - Our Song

Tom: **D**

D
I don't know why sometimes we seem so apart
G
Sown together with a broken heart
A
I try to see you but it's getting dark
D **Gbm**
Words keep flowing out I wonder what they mean
G
You're like a little piece of kerosene
A
But girl you've always been a friend to me
Em
And I been too proud sometimes
G **A**
Chasin' fault lines

D
Oh no
Gbm
I'm gonna be there always
Em
After the pain has gone away
The feeling is so strong
G
This can be our song
A
This can be our song

D
Oh no
Gbm
I'll never make you cry again
Em
I'm gonna set things right again
And I won't let 'em go wrong
G
This can be our song
A

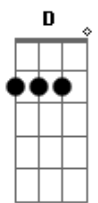

This can be our song

D **Gbm**
I don't know if someone else could handle me
G
I don't know what I'm supposed to be
A
And you're the only one who really sees
You get me
D **Gbm**
I feel something growing deep inside of me
G
What I say and what I mean
A
Always seem to disagree
Em
So help me through this hard time
G **A**
Change these fault lines

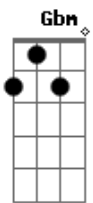

D
Oh no
Gbm
I'm gonna be there always
Em
After the pain has gone away
The feeling is so strong
G
This can be our song
A
This can be our song

D
Oh no
Gbm
I'll never make you cry again
Em
I'm gonna set things right again
And I won't let 'em go wrong
G
This can be our song
A
This can be our song
