

Matheus Vps - Hacked By Angel Of The Night

tom:

Em

You got hacked by the angel of the night
 You got hacked by the angel of the night
 You got hacked by the angel of the night

You got hacked by the angel of the night

You got hacked by the angel of the night

You got hacked by the angel of the night

Angel of the night

O frio corrompe a resistência do forte

Mas o fogo também queima

Trazendo a morte

Queimando corpos, acendendo lembranças

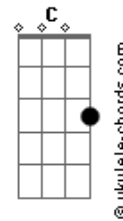

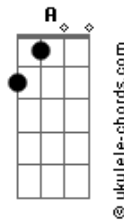

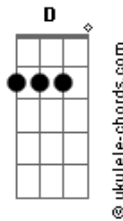

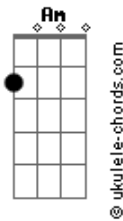

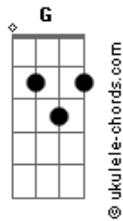

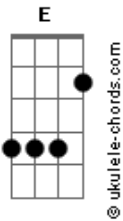

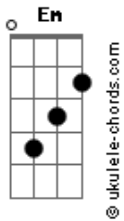

Estou com frio já quase sem esperança

(Em C D)
 (Em C D)

Enfrentei muitos monstros

E nenhum pôde me machucar

Acordes

Mas o vazio que você deixou
 Nada nem ninguém pode restaurar

Seus gritos nunca mais vão ressoar

Mas sua lembrança irá me esquentar

E as portas que a gente abriu irmão

Nunca irão se fechar

You got hacked by the angel of the night

(Menino!)

You got hacked by the angel of the night

You got hacked by the angel of the night

You got hacked by the angel of the night

(Respeita o rato)

You got hacked by the angel of the night

You got hacked by the angel of the night

You got hacked by the angel of the night
