

# Matisyahu - Darkness Into Light

Tom: G  
Intro: Em

Em  
I can't stop drop and roll  
Fire been burning out of control  
And burning keep the hearts all yearning  
And the heads them keep on turning

Em  
I dig in, I dig in and sinking my teeth in  
Spit fire 'cause I'm the last dragon  
Knock, knock them down sizzling with a vision  
New York City to Jerusalem  
Concrete jungle burn down Babylon  
'Cause a simple man am I  
With my chest up to the sky  
When I walk by, my talk rides high like the wind rewind

Refrão:  
Em G Bm D Em  
I'll be by your side when nighttime it runs on  
G Bm D Em  
And the children they ride high I'll be standing on the sun  
G C D Em  
Burn into the light, burn into the sun

Em  
Find these lines that climb from inside  
The dream in between, the words you might  
Hear me slur as the vision it blurs

And the sun sets you don't know who to follow  
And the path that they passed seems shallow  
You never know where you might go  
But the seed that you plant is the seed that you sew

And rain down at midnight I ride my bike  
King with my broken crown  
Brooklyn Bridge to Crown Heights
