

Matisyahu - We Will Walk

Tom: Ab

(forma dos acordes no tom de G)

Capostrate na 1ª casa

Intro: C G Em F G

I told her you must go you can't stay here

She said I know since the death blow

My soul's been oh like sand

I'm so tired, it's like my spirit expired

Remember when I was just a child yet

Now I feel like a star a daybreak about to expire

And get lost in the sun, me and you

We gotta leave and just run and run

Don't wait for me while I'm down

Cause I might not get up

All I have is right now but I give you what I got

[Refrão]

You are the oh-only good thing

That I have ever done

We will walk until my blood runs out

Until my heart is burned, you are not alone

You are the Oh-only good thing

That I have ever done

We will walk until my blood runs out

Until my heart is burned, you are not alone

Patience on top of a mountain

Pumping blood through the veins of creation (we are not alone)

He aches for her but can't find his way can't live no more

I ache for her but can't find my way I can't live no more
(she is not alone)

Just before the light goes away

Comes a child that collects all the reasons to be

That laughs and that smiles, moments of clarity

Exchanging them for another day

Exchanging them for another day

And so my heart continues to say

[Refrão]

You are the oh-only good thing

That I have ever done

We will walk until my blood runs out

Until my heart is burned, you are not alone

She said we got to go we can't stay here

I said I know but got no place to go

The nights are cold

And we need a place to be

Remember when I was just a child yeah

Now I feel like a star a daybreak about to expire

And get lost in the sun

Me and you, we gotta leave and just run and run

[Refrão]

You are the oh-only good thing

That I have ever done

We will walk until my blood runs out

Until my heart is burned, you are not alone
