

Matt Maltese - Less And Less

[Primeira Parte]

We make an end
It seems short-sighted but in our defense
We were pretty damn young and unspent
Making choices with our innocence
And October ends
We grow closer to our other friends
Where I sat beside you
I sit now and reflect
And walk by buildings
Till it makes some sense
And I know

[Refrão]

You should take yourself
Feel the rhythm life goes on again
Though I ain't sure it's really
How we meant
I'll feel settled in a simple sense
Cause I think of you less and less

[Segunda Parte]

See the grapefruit moon
By the willows where you clutched my youth
I recall the end we always knew

We drift apart but it's
The right way through
Yes I know

[Refrão]

You should take yourself
Feel the rhythm life goes on again
Though I ain't sure it's really
How we meant
I'll feel settled in a simple sense
'Cause I think of you less and less

[Ponte]

And though it's fading with time
I remember the warm nights
With love in your eyes
Passing the days
Watching rain as it dries
Staring at your eyes
I know it's the time

[Refrão Final]

When you should take yourself
See the daylight and the change that's been
Though I ain't sure
I'll ever feel nothing
I'll be settled in a simple sense
'Cause I think of you less and less
'Cause I think of you less and less
