

Mavie - Everything Is Dust

tom:
 I'm giving you something
 But it is always slithering out of my hands
 On that stormy night I had to let my empty hopes go
 Let's sing sad songs
 Make fantasy come true
 Feel the Wind under the moon
 Scream our frustrations on the road

Burning on fire
 Ashes on the floor

Could love be a disturbance or a perfection

Acordes

Do people really care or is it the moment?
 When despair welcomes in your eyes
 I'll be here holding your hand

Burning on fire
 Ashes on the floor

Just a ghost of what we used to be
 Just a ghost of what we used to know
