Em
I never meant the things i said to make you cry
               C
Can I say I'm sorry?
                D
It's hard to forget
               C
Yes I regret
             G
All these mistakes

Em
I don't know why you're leaving me
                           C
But I know you must have your reasons
                       D
There's tears in your eyes
              C
I watch as you cry
                    G
But it's getting late

       C         D         Em
Was I invading in on your secrets?
                     C
Was I too close for comfort?
                  D              G
You're pushing me out when I wanted in
       C    D       Em
What was I just about to discover?
                    C                       D
When I got too close for comfort in driving you home
               Em
Guess I'll never know

Em
Remember when we scratched our names into the sand
                  C
And told me you loved me
             D
And now that I find
               C
That you've changed your mind
             G
I'm lost for words

Em
And everything I feel for you
                         C
I wrote down on one piece of paper
             D
The one in your hand
              C
You won't understand
```

```
                    G
How much it hurts to let you go
          C        D        Em
Was I invading in on your secrets?
                     C
Was I too close for comfort?
                           G
Your pushing me out when i wanted in
          C    D       Em
What was i just about to discover
             C                       D
When I got too close for comfort in driving you home
               Em
Cos I'll never know

Em                             C
All this time you've been telling me lies
                              D
Hidden in bags that are under your eyes
                          Em
And when I asked you I knew I was right
                       C
But if you turn your back on me now
When I need you most
                 D   C   Cm
But you just let me down, down, down
              Em                         C
Won't you think about what your about to do to me
        Cm        G
And back down

       C     D       Em
Was I invading in on your secrets?
                     C
Was I too close for comfort?
                  D              G
Your pushing me out when i wanted in
          C    D       Em
What was I just about to discover?
                     C
I got too close for comfort
             D              G
Pushing me out when I wanted in

G
Yeah, yeah, yeah
          C    D       Em
What was I just about to discover?
                                C
When I got too close for comfort
             D
Driving you home
                G
Guess I'll never know
