

Mel Maryns - Someone To Hold

tom:

Intro: Fm Eb Db Eb

[Primeira Parte]

There was a girl
Broken inside
I felt her pain
I tried to help
No one could see it
She couldn't tell them
Afraid they'd see her real self

[Pré-Refrão]

She kept drowning
In her own thoughts
Was nobody coming to rescue her?

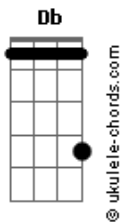

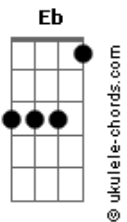

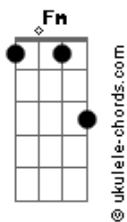

[Refrão]

She's all alone
Cold like a stone
It's a dark night
Will she be alright?
Nowhere to go
No friends or home
She just wants
Someone to hold

[Segunda Parte]

This is not a phase
I see it in her eyes
It's not an escape
It's not a disguise

Acordes

She's hiding for so long
Thinking she was wrong
She's losing her mind
Just please apologize

[Pré-Refrão]

She kept drowning
In her own thoughts
Was nobody coming to rescue her?

[Refrão]

She's all alone
Cold like a stone
It's a dark night
Will she be alright?
Nowhere to go
No friends or home
She just wants
Someone to hold

[Ponte]

Where she belongs
Will she ever know?
Just come along
And let her know where to go

[Refrão]

She's all alone
Cold like a stone
It's a dark night
Will she be alright?
Will she be alright?
