I was three years old

All I wanted was the music and  
My parents were doing everything they could  
To move away from our place working over time always  
While I sat up in my grandma's project building coloring, oh

Moved to a small town and started to, started to grow  
Poetry written, I'm singing and dancing, oh

Photographs, painting, cartoons  
That's all I know

That's all I know, oh

I have one best friend to this very fucking day  
Since we were five years old and I fucking moved away  
I wish I never did cause she's the only one who sees me  
For who I really am instead of how many I reach, oh

Trusted too many fake people while I was still young  
Gave them the benefit of the doubt, I was so wrong  
I cut them off and they came for blood cause they know  
They ain't getting no more

I'm so done with playing piggy back, oh  
Swear to god I wished y'all all the best, oh  
You're lying your way to try to gain a piece of me  
When you could never come close cause I know my destiny  
I worked hard for my shit

Put my love in this shit  
Now you're trying to kill my name for some fame  
What is this?  
Tried to help you do your shit  
Encouraged you to work on it  
Was a good friend and you used that to your advantage  
Now I'm 22 and I've had a crazy year of  
Isolation from all the plastic people here  
I cannot wait for the day  
I can finally move away  
Back to New York City where the realest people really stay, oh

Spent this whole time writing away my heart and my soul  
The people I surround myself with have hearts filled with gold  
Love and empathy are things that we hold so close  
Trying to learn and evolve
