 Ah, ooh, ah, ooh

[Verse 1]

A seed mother in the chosen space for  
 Me  
 Little does she know it's free, oh  
 Yeah-ah  
 I'm undercover, as they wait for joy I  
 Cry  
 On a mission, learn and die, ooh  
 Yeah-ah  
 And I know my brother, he'll make the  
 Journey later on  
 Conversations in the cosmos, yeah-ah

And it's all a game now, once I'm in  
 The world, it's lost  
 Memories gone to evolve, ooh, yeah-ah

[Pre-Chorus]

Merging, cells and flesh  
 I'm baby building all my insides  
 Right to see the future  
 Right before my eyes, I know  
 What's coming, what's coming

[Chorus]

In the womb, get me out now, safe, and  
 I'm sound  
 Cut the cord, I'm comin'  
 Out the blue, belly water, too hot and  
 Cold, through with it  
 Oh now she's birthin'  
 Feeling alive, the closer that I get  
 To my life  
 I'm pushing out the center, the core  
 I'm swimming through the flower no  
 More, no more
