

Men At Work - Overkill Solo

Tom: **D**

Standard Tuning (EADGBE)

I'm not sure if he plays parts like the beginning in those frets or in higher frets on strings (because when you listen to the first slide down, it might sound like it goes than the open B, but I'm not sure), but I decided to tab it like this, because you're more of the metallic sound Colin's got in that song, too

(maybe because he plays it this, maybe because of his guitar/strings).

Any suggestions/corrections to:

Thank you and enjoy! (:
David
