

Men At Work - Underground

Tom: G
Intro: .: E

(E)
Don't take the fire from your eyes
Must make them feel the heat

They build castles underground for the rich and politic elite

(E)
Keep all the home fires burning,
Don't let the lights go out
The streets are empty, and there's nobody about.

We'll be alright in the morning time
yeah
We're doing fine, I'll see you on the night line

(E)
There's no need for you to fight, boys,
Hang up all your guns
Find your mask and as best as you can, get ready to run

(E)
Keep all the food lines moving,
Don't come cry'n' for more
The signs were there, you should have bought connections

before

We'll be alright in the morning time
yeah
We're doing fine, I'll see you on the night line

It's such a big joke
It's the talk of the town
All the planets to whom I spoke
Are trying their best to play it down

(E)
Don't take the fire from your eyes
Must make them feel the heat
But my head's unsteady
I can't seem to keep my feet

(E)
Jump off the Eiffel Tower
Just have a look around
Move fast, in the tunnels of the underground
Move fast, in the tunnels of the underground
