

Meramolim - Fruta Madura

Tom: **B**

m

Sempre te vejo pela beira do riacho
Pelo solto pé descalço

Corpo nu rosto sorrindo

Espiga aberta bem no meio da seara

Lua nova noite clara

Estrela que vem caindo

Então te vejo surgindo moça formada

Cana doce namorada

Na estrela chuva fina

Sonho atrevido flor forrada de orvalho

Fruta madura no galho

Cachoeira cristalina

Sinto teu cheiro com a pancada do vento

Isso aumenta meu tormento

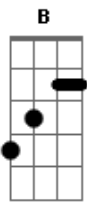

E desatina o meu cantar

Eu me enrosco me prendo em teus abraços

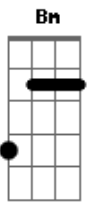

Paz na curva dos teus braços

Vou fazer minha morada
