[Primeira Parte]

I want to gaze into your eyes and see the fire in their glow  
 But it's the same old story  
 Want to melt inside my arms like falling rain upon the snow  
 But you say no, you say, no  
 Want you to help me though deep waters when my ship is in a storm  
 Want you to give me all the power like a king on his throne  
 But you don't care you don't care  
 History repeats itself, I seem to be all by myself again!

[Refrão]

Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise, paradise!

[Segunda Parte]

One day I'll look into your mind and understand which way to go

## Acordes

But it's the same old story  
 When you refuse me all the time I'm suicidal on my own  
 But you don't know, you don't know  
 I want to be beside you now, lie in the sand and kiss your brow  
 I want to fly beyond the moon and do the things we do for love  
 But you don't care, you don't care  
 History repeats itself, I seem to be all by myself again!

[Refrão]

Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise  
 Come into my life, it's a man made paradise, paradise!
