**GUITAR SOLO:**

For the solo, the rhythm follows the following 'feel':

X X X X

Chord changes are noted above tab lines, and are 2 or 3 fingered power chords, depending on what you feel like. For the 'XX' notes, strike the full chord, on the others just play the lowest note (Usually the E string)

**NOTES :**

- For the intro solo, use the left hand for all taps
- The open string is picked with the pick, then hammer on with your index finger, then little finger for the highest note. This technique is also used in the main solo as well.
- For the tapping part on the main solo, i find it easier to use my middle finger rather than the pick edge (Since it is not too fast)
