Transcript index:

        b= bend (note in parenthises is how far ya bend it)
        r= release bend
        h= hammer on
        p= pull off
        w= Whammy bar
        ~= Vibrato
        T= pick or finger tap

----------------------------------------------------------------
------

Starts off heavy with heavy distortion:

                                                Here you pull
off with
                                          your fingers and tap
the "T"
                                                  notes with
your pick

Swith on Wah and use as filter:

                        slow release here                       R
R   L R   R

NOTE: I don't know how Kirk really does it, but here's how I
think it goes.
      Constantly tap fret 19 with right finger or pick.
      Notations like "17T19" mean tap 19 and 17 at same time.
      When done correctly, the first note will sound with the
release
      of the "19". Sound hard? Keep practicing it. It's really
fast!

L= Left finger
R= Right finger or pick

        Numbers indicate finger: 2=index / 3=middle / 4=ring

   L R   R   L R   R   R   L R   R   L R   R   L R       R  L4
R  L3 R

                          slide index to fret 12

   L2 R   L4 R  L3 R  L2 R /L2 R   L4 R  L3 R  L2 R

                                  slow whammy dive

That's it. Email me with corrections and stuff.
