

Metallica - Creeping Death

Tom: E

Tempo = Fast Rock = 184 bpm
Intro: (Ryth Fig 1) (end Ryth Fig 1)

w/Ryth Fig 1 (once)

(Ryth Fig 3) (end Ryth Fig 3)(Ryth Fig 4)
x4 x8
H P P

You then play Ryth Fig 3 four times, and then continue.

Chorus
@ E C D F G
w/Ryth Fig 3
(twice)

Lotsa solo stuff. Damned fast, but not hard. Usual pentatonic minor soloing.

Bridge
(Half Time Feel)

(This is the "Die, by my hands..." part)

Each chord is a half note, except the E which is 4 quarter notes using only

the bottom string. The progression is like this:

E E E E F D E E E E G F (x3)

Then it's Ryth Fig 3 for 6 bars. On the sixth bar, another gutair plays the following:

Ryth Fig 9

(Following Can be played by 2 guitars, one high, one low, but one can do it)

w/Ryth Fig 9

/ \ x3
x3

Something for 4 bars... Probably one of the above riffs.

Ryth Fig 2 (twice) Then it's free time.

Then it's 4 chords, with a slight retard:

Trill

Now, in the Exact same bar where the E Trill starts, this scale starts, with two guitars.

P P H H

And of course, it ends with 2 hard E chords, and a slide to nothing.

Acordes
