

Metric - The Shade

Tom: E

(com acordes na forma de Capotraste na 2ª casa)

I'm following the sun
That's setting in the West
We're floating on a bed of fading lights
A canopy of trees
Bears witness to the breeze
I'm falling like a feather, soft and light
Baby, there's no better time
No better time, baby, we can't find
With eternal love, the stars above
All there is and ever was
I want it all, I want it all
I want it all, I want it all
A blade of grass, a grain of sand
The moonlit sea, to hold your hand
I want it all, I want it all
I want it all, I want it all
The embers of a fire
still burning as they die
Stay bright to keep us side by side
Baby, there's no better time
No better time, baby, we can't find
With eternal love, the stars above
All there is and ever was
I want it all, I want it all
I want it all, I want it all
A blade of grass, a grain of sand
The moonlit sea, to hold your hand
I want it all, I want it all
I want it all, I want it all
With eternal love, the stars above
