

# Metric - The Shade

Tom: E

(com acordes na forma de Capotraste na 2ª casa)

I'm following the sun  
That's setting in the West  
We're floating on a bed of fading lights  
A canopy of trees  
Bears witness to the breeze  
I'm falling like a feather, soft and light  
Baby, there's no better time  
No better time, baby, we can't find  
With eternal love, the stars above  
All there is and ever was  
I want it all, I want it all  
I want it all, I want it all  
A blade of grass, a grain of sand  
The moonlit sea, to hold your hand  
I want it all, I want it all  
I want it all, I want it all  
The embers of a fire  
still burning as they die  
Stay bright to keep us side by side  
Baby, there's no better time  
No better time, baby, we can't find  
With eternal love, the stars above  
All there is and ever was  
I want it all, I want it all  
I want it all, I want it all  
A blade of grass, a grain of sand  
The moonlit sea, to hold your hand  
I want it all, I want it all  
I want it all, I want it all  
With eternal love, the stars above
