

Metro Station - Control

Tom: C

(intro) (A Fm Em Fm A Fm Em G A)

Another cigarette and i'm so bored your words aren't making sense

i was taken but you were waiting one more drink and i'm convinced

not one more sound

let your hair down

take the low road

no one will know

whoa, i feel just like we're taking control

of the night

whoa, i feel just like we're losing control

but if you let go then i'll let go tonight

(A Fm Em Fm A)

another minute lived if you take me i'll take what you will give

i was late and she kept waiting but i hope she knows where i've been

not one more sound

let your hair down

take the low road

no one will know

whoa, i feel just like we're taking control

of the night

whoa, i feel just like we're losing control

but if you let go then i'll let go tonight

(no guitar part)

i'm coming down

bring me up

take it off

let's just touch

(A Fm Em Fm A)

whoa, i feel just like we're taking control

of the night

whoa, i feel just like we're losing control

but if you let go then i'll let go tonight

(A Fm Em Fm A)
